-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1 and 16-18 are presented for examination on the merits.

Response to Amendment

The amendment filed November 29, 2007, has been received and entered.

Election/Restrictions

Applicant's election without traverse of Group I in the reply filed on May 14, 2007, is acknowledged. All non-elected claims have been canceled.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rendered vague and indefinite for recitation of "comprising an isolate" at line 2 because it is unclear what "isolate" is intended to mean and it is suggested to change the phrase to "said strain". Moreover, the claim is rendered vague and indefinite for failing to recite the genus and species for each strain and also for including all of the strains in a Markush Group because the claim is directed to a biologically pure bacterial strain. Thus, the strains of the Markush group can read on a mixture of strains and hence a mixed culture would not be biologically pure. Similarly, claims 16-18 are rejected for the same reasons as it has the same problems as claim 1. Furthermore,

Art Unit: 1651

claims 16 and 17 remain to be duplicates of each other because the surfactant can also be produced by claim 16 since the same strains are claimed. It is suggested to include the genus and species for each strain and to further not to claim them in Markush groups because claims may read on a mixed culture.

Claims 1 and 16-18 are rendered free of the prior art.

The references listed on the previously enclosed PTO-892 and/or PTO-1449 remain cited to further show the state of the art.

No claims are allowed.
